

Here are the questions we left as homework towards the end of the video:

- 1) What is the likelihood for a male student to be accepted?
- 2) What is the likelihood for a female student to be accepted?
- 3) Does gender have an effect on your chances of being accepted?
- 4) Are first time freshmen men or women more likely to enrol?

Onto table C2.

- 1) What is the likelihood of being offered a place on the waitlist?
- 2) What is the likelihood of getting admitted, having accepted a place on the waitlist?
- 3) What is the likelihood of getting admitted, having been offered a place on the waitlist?
